

## STUDENT USE OF VOLUNTARY TRANSPORTATION TO AND FROM DISTRICT SPONSORED ACTIVITIES

Frequently students ride together while traveling to and from district activities, such as off-campus instruction and participation in athletic events. Generally students are expected to travel via the transportation provided by the college. However, should it be necessary for a student to travel in a different manner, the following guidelines must be followed:

1. Prior to the activity, all students providing their own transportation shall complete "Student Voluntary Transportation Agreement," Form FS #32, and submit it to the activity leader for approval.
2. If the student is under 18 years of age, the parent or guardian must also sign the agreement.
3. Students who have not signed the agreement must ride in the district provided transportation.
