

## ANIMALS OR PETS ON CAMPUS

Domestic animals or pets of any kind are not allowed on the campus of any college except as described herein. This restriction also applies to animals or pets confined in any vehicle parked within a college boundary. In connection with special class assignments or events, a college president or an appointed designee may grant approval to an individual to bring an animal or pet on campus. When such approval is granted, the individual shall control and supervise the animals or pet at all times while on campus. This policy does not apply to the use of a service animal, specifically trained to perform tasks related to the disability of an individual or the instructional use of animals or animals indigenous to the college grounds as promulgated in BP-3440 Service Animals and AR-3440 Service Animals.
