

PUBLIC SAFETY CAMERA SYSTEM

The South Orange County Community College District authorizes the use of a public safety camera system for the purpose of creating a safer environment for all those who work at or visit the District. Cameras may be placed in strategic public locations, such as parking lots, campus entrances, building entrances, exteriors, hallways, and lobbies, throughout the District at the direction of each college or district services and established procedures will be followed. This camera system is not intended for use in classrooms or private offices. These cameras can be used to detect and deter crime, help safeguard against potential threats to the public, help manage emergency response situations during natural and man-made disasters, promote the safety of students and staff where cash is collected or at other public service counters, and assist District officials in providing services to the college community.

This policy does not apply to proctoring centers.
