

BASIC SKILLS COURSES

A student's need for basic skills coursework shall be determined using appropriate placement methods inclusive of high school transcripts, guided self-placement, or any applicable assessments.

Aligning with AB 705, students may be recommended or required to enroll in basic skills co-requisite courses that are offered in combination with college level courses.

English language learners may also be supported by basic skills co-requisite and below-transfer, standalone courses.

College catalogs shall include a clear statement of the limited applicability of basic skills coursework toward fulfilling degree requirements and any exemptions that may apply to this limitation.
